2018 – 2019 SCHOOL PROFILE

School Overview
Coliseum College Prep Academy (CCPA) is a small public school in Oakland Unified School District. Designed by a team of parents, students and educators to offer a high quality, college prep education for historically underserved students in the Coliseum neighborhood of East Oakland, CA, the school’s vision is to deliver a rigorous academic program that meets each learner’s unique needs, capitalizes on their passions, and connects their learning to the real world. CCPA educates students to become Learners, Thinkers, Communicators and Community Members.

Community Context
CCPA seeks to empower students to become change agents in their community, combining rigorous academic coursework with community engagement opportunities. Oakland is a city with a history of being at the forefront of social justice movements, and a legacy of resilience in the face of struggle. CCPA students embody this, and are undeterred by the high concentrations of violent crime, incarceration, poverty, and poor health outcomes prevalent in their surroundings. Although over 40% of students have experienced at least one traumatic event by the time they enter 6th grade, CCPA has the highest college going rate in the district. The school takes a longitudinal approach to education that emphasizes academic and social/emotional support and intervention, community and family partnerships, an extended school day, and intensive, individualized college advising.

School & District Comparisons
Graduation Rate (2017)
CCPA: 91%
Oakland Unified: 71%

4-Yr College Enrollment, 1-Yr After Graduation (2016)
CCPA: 66%
Oakland Unified: 30%
College & Career Pathways

College & Career Pathways provide students with opportunities to develop skills in research, collaboration, problem solving, teamwork, and leadership. In 9th grade, students in the Class of 2019 were part of either a Social Justice, or Business & Entrepreneurship Pathway, and in 10th grade some students opted in to a new Computer Science Pathway. In the Business Pathway, students worked in teams with a business mentor to create and launch a business, while studying product design, marketing, accounting and finance. Social Justice Pathway students learned Ethnic Studies frameworks and studied social problems and social movement history while doing service work and community organizing at local organizations. Computer Science Pathway students took AP Computer Science Principles and AP Computer Science A, and as seniors are in a Computer Science Senior Seminar learning how to build an Android app for their Senior Capstone team.

Concurrent & Dual Enrollment

Beginning in 10th grade, students have opportunities to take on-campus Dual Enrollment (DE) courses, which are UC & CSU transferrable classes taught by college professors from the Peralta Community College District. In 11th & 12th grade, students may also take courses on the college campuses. Every January, CCPA holds a 3-week Intersession, and 10th-12th graders take an immersive DE college course which meets for a full semester’s worth of hours. All college coursework is posted on both high school and community college transcripts, and a semester-long college course earns students a year’s worth of high school credit. Due to the rigors of AP Computer Science, and scheduling limitations, CS Pathway students have almost no access to college classes, either at CCPA or off campus.

Post Session

Post Session is a two week mini-term at the end of the school year that expands the educational experience beyond the gates of the CCPA campus. Staff collaborate across disciplines and grade levels to offer innovative and engaging art and PE electives that capitalize on the Bay Area’s cultural and natural resources. Post Session offerings range from filmmaking to backpacking to studying Shakespeare and traveling to the Oregon Shakespeare Festival to see live theater. These are experiences that students would otherwise not have access to.

Senior Capstone Project

The Class of 2019 is undertaking a new and redesigned Senior Capstone Project. Seniors are working in teams of six, and using Design Thinking methodologies to examine and seek solutions to a social issue faced by people in Oakland. By the end of the year, each team will develop an Android app to address a community need. Individually, each student will also write a research paper using traditional methods and field research, on a topic related to their group project. At the end of the year, students must present their work to a panel of judges in order to graduate.

Humanities

Beginning in 8th grade, students examine different versions of history, analyzing the historical narratives of both those in power and those oppressed. In 11th and 12th grade, English and History are combined into a double-period Humanities core, allowing for in-depth and interdisciplinary analysis of the contradictions, conflicts and struggles that have propelled society.

STEM

Students are enrolled in both math and science classes for all four years of high school. All students take biology, chemistry and AP Environmental Science. The STEM curriculum culminates with either AP Calculus AB and Physics, or a college level Statistics class and an applied engineering class.

Partnerships & Extracurricular Activities

CCPA strives to connect students to enriching summer opportunities and promotes participation in college access and success organizations, as these experiences lay the foundation for success in college. Key partners include • BUILD • buildOn • College Track • East Bay Consortium/Cal-SOAP • East Bay College Fund • Learning AFAR/No Barriers Youth • METS (Trio) • Mission Bit • PiE Robotics • Students Rising Above • Summer Search • Upward Bound. CCPA does not have traditional extracurricular activities like drama, music, student gov’t, clubs, or yearbook due to the extended school day, internships, and college classes. There is a GSA, a BSU, a Robotics team, and a Prom Committee.

### Social Justice Pathway
- Ethnic Studies
- Civic Engagement
- DE: Ethnic Studies 14: Community Building in Urban America Pathway Seminar
- Senior Seminar Internship

### Business Pathway
- BUILD: Business Entrepreneurship 1
- Marketing & Business Leadership
- DE: Business 80: Financial Literacy Pathway Seminar
- Senior Seminar Internship

### Computer Science Pathway
- AP Computer Science Principles
- AP Computer Science A College Seminar
- Senior Seminar Computer Science Senior Seminar

### College Seminar
- College Seminar
- College Seminar

### Elective
- Art I (required)
- DE College Class
- Internship or College Class
- College Class Honors English

### Important Notes
- Due to CCPA’s small size and limited course offerings, students have little to no choice in their high school course selection, but can choose college courses based on their interests.
- Students can accelerate in math in 9th Grade by taking both Algebra and Geometry. For students in Statistics, spring semester of 12th grade is a transferable dual enrollment course (Math 13 at Merritt College).
- Students only have access to foreign language courses in grades 9 and 10. Placement is based on Spanish language proficiency.

### AP & Honors Courses
- AP Calculus AB
- AP Computer Science Principles & A (only open to CS pathway)
- AP Environmental Science
- AP Spanish
- Honors English elective (New 2018-'19)

### Class Rank & GPA

Total Weighted GPA is used for Class Rank and Honors at Graduation, and includes all courses taken in grades 9 -12, with an extra point for AP, Honors and college classes. Academic GPA includes only University of CA approved college prep courses marked with a ‘p’. Students pass with an A, B or C.
Transcript Abbreviations

| p  | College Prep | Approved UC/CSU course, listed on the University of California Course List. Counts towards Academic GPA. https://hs-articulation.ucop.edu/agcourselist#/list/details/420/ |
| *  | Non Academic | Counts towards Total GPA but not Academic GPA. Counts for OUSD graduation requirements, but not UC/CSU entrance requirements. |
| NM | No Mark      | Student was not enrolled long enough to receive a grade. |
| r  | Repeated     | Student repeated failed course. Passing grade replaces F in GPA calculations. |

College Advising & Matriculation

CCPA dedicates one hour per week during junior and senior year for a College Seminar class, and maintains a robust calendar of family engagement events, which integrate parents into the college-going process. College Seminar focuses on college exploration in 11th grade, and step-by-step support with the college application and matriculation process in 12th grade. This intensive and sustained support, coupled with ongoing family communication, and 1:1 meetings with students, has increased the college application rate to almost 100%; four-year college acceptance rate to 80%; and reduced “summer melt” to less than 10%. At the end of 12th grade, seniors develop a post-high school plan, which is a component of their Senior Capstone Project. With the launch of Oakland Promise in 2016, CCPA graduates now receive college success and persistence support from East Bay College Fund through college graduation.

College Acceptances and Matriculation 2014-2018

Schools listed in bold denote institutions where graduates enrolled. Schools marked with an asterisk (*) denote institutions from which CCPA alumni have graduated. The class of 2019 includes three Posse finalists.
