

# Special Education Specialist Assignments

## PROGRAM MANAGERS and PROGRAM SPECIALISTS

***Program Managers** collaborate with site and district leaders to promote the standardization of evidence-based practices and multi-tiered systems of support (MTSS) for students with special needs across the district. Our **Program Specialists** are experienced Special Educators who provide oversight, professional development and support to our Special Education programs. They ensure IEP compliance, communicate with site staff, and support teams and families with questions or concerns about Special Education programs.*
