Our Mission

All students will graduate. As a result, they are caring, competent and critical thinkers, fully-informed, engaged and contributing citizens and prepared to succeed in college and career.

Our Vision

To reestablish schools as centers of community by transforming OUSD into a full-service community school district. In addition to high-quality instruction, health, physical education, nutrition, medical, dental, recreation, housing, employment and language acquisition services are provided in this model, with the school acting as the hub of activity. The emphasis is on educating and caring for the whole child. Social and human services are not seen as extra or add-ons in these schools. Instead, collaboration in service of the well-being of children and families is how these schools consistently behave.

Our Priorities

Safe, Healthy and Supportive Schools
High Quality Effective Instruction
College and Career Readiness Literacy

Our Goal

To build a Full-Service Community School District that cares for the whole child, eliminates inequity and provides all students with an excellent teacher each and every day.
Dear OUSD Employee Award Winners,

I am honored to write this letter acknowledging some of our finest employees. The OUSD Employee Awards are a celebration of the hard work and dedication displayed by Teachers, Principals, Administrators, School Site Staff, and Central Office Staff. The awards also symbolize the transformation underway in the Oakland Unified School District. We are leaving behind a culture that failed to adequately recognize accomplishment and moving toward one that values employees and celebrates achievement.

In order for our vision of high quality, equitable public education to become reality, all staff must contribute to the crucial work that takes place in the classroom. As exemplary employees, you are setting the standard for what OUSD should be and what it will become. Your leadership is critical to shaping the future of our children and of our city. Words cannot express the level of gratitude I have for your work or the impact it has on the lives of students and families. You are everyday heroes whose efforts too often go unnoticed. Today, that will change as we come together in celebration of your character and your accomplishments. We thank you for your service and the difference you have made in the lives of children.

Sincerely,

Tony Smith, Ph.D.
