

OUSD emPower Energy Awareness Activities

Please check off **at least** three of the following activities for your site. See column on the left for appropriate grade level participation.

<input type="checkbox"/>	K-12	Assembly (<i>Recommended</i>)	The emPower team will partner with a third-party organization to host an assembly to promote energy conservation. Students from all grade levels are encouraged to participate, and assemblies will be tailored to the grade level of the students. The assembly is expected to last ~1 hour.
<input type="checkbox"/>	5-12	Energy Audit (in-class or after school)	The emPower team will work with interested classrooms or student groups to survey energy use in selected rooms using various professional tools.
<input type="checkbox"/>	K-12	Staff Training and/or PTA Presentation	Through our partner organizations, we can provide staff training on energy use and conservation. In addition, the emPower team can present energy saving ideas for schools and homes at a PTA meeting.
<input type="checkbox"/>	K-12	Energy-related Art Activity	The emPower team can assist with an art activity or art contest that is related to energy.
<input type="checkbox"/>	K-12	Hold an Earth Day/Green Festival Event	Hold a school-wide, day-long or week-long event that helps raise awareness of sustainability issues, including energy use.
<input type="checkbox"/>	K-12	Energy Bulletin Board	Make monthly public announcements providing energy tips, upcoming energy events, and recognition for classes or students that have achieved significant energy savings. An Energy bulletin board is a great way to provide energy information and keep the discussion going.
<input type="checkbox"/>	K-12	Incorporate Energy Curriculum	Through our partner organizations, the emPower team will provide and lead in-class activities/lessons that align with California standards for education.
<input type="checkbox"/>	K-12	Movie Screening	Provide a movie and related discussion materials related to energy.
<input type="checkbox"/>	9-12	Panelist discussion for high school students	The emPower team can coordinate a panel of professionals in the energy and sustainability field to speak to high school students on topics such as green careers, sustainability best practices, corporate social responsibility, and others.
<input type="checkbox"/>	K-12	Make your own!	The emPower team will cater to your school's uniqueness. We will work together to identify an energy-related activity and incorporate it into your program!
