ADDENDUM NO. 1
(Issued July 19, 2021)

Request for Qualifications and Proposals
Geotechnical and Geohazard Consulting Services
for
Various Measure Y Bond Program School Sites

The following changes, additions, modifications and corrections hereinafter set forth shall apply to the bid documents for the project and shall be made a part thereof and subject to all the requirements thereof, as if originally specified and/or shown;

District Modification #1:
The deadline for submitting proposals shall be extended to July 26, 2021 (2:00 p.m. PST).

Question #1:
The RFQ/P requests a breakdown of associated costs for all tasks proposed (including contingency tasks). However, our costs for these tasks will be project-specific. Is there an example project that we should consider, in order to develop our fees for the tasks outlined under Basic Services?

District Response #1:
The RFQ/P requests for hourly rates and unit costs for typical work scope are for reference only. The District understands that pricing for specific projects will require adjustments.

Question #2:
Our firm is an LBE and we would partner with or subcontract with an SLBE or SLRBE firm to meet requirements, depending on the project scope. The SLBE firm and their tasks would be detailed in our proposal for each project. Is it required that specific SL/SLRBE firms be listed in the Local Business Participation Worksheet in our RFQ/P response?

District Response #2:
As no specific project was identified, the District is primarily interested in a company’s ability to meet OUSD’s Local Business Utilization Policy. The District encourages submittals that demonstrate a best effort to meet the LBU Policy. District understands that teaming for specific projects will necessitate adjustments (i.e., team composition and percentage of utilization).

RECEIPT OF THIS ADDENDUM (AS WELL AS PREVIOUSLY ISSUED ADDENDA) MUST BE ACKNOWLEDGED IN THE PROPOSAL.
