VISION

All Oakland school communities and departments embrace students with disabilities and provide support and resources to ensure every student thrives!

MISSION

Programs for Exceptional Children supports District students, families, departments to ensure that each student with unique learning needs is provided a rigorous academic program, achieves at the highest level, and is recognized and respected. We believe that every student can graduate prepared for college, career and community.

GUIDING BELIEFS

1. We believe that given the right supports, ALL students can achieve at high levels and graduate college, career and community ready.

2. We believe that students’ cultures and experiences are tremendous assets that we must leverage for their own learning and that of their community.

3. We believe that ALL students in our system must have access to high quality instruction, Common Core curriculum, and social emotional learning.
**Programs for Exceptional Children Roadmap**

**Goal #1:** Demonstrate three consecutive years of improved performance for students with IEPs.

**Objective 1:** Ensure that all mild/moderate students have access to the Common Core curriculum and participate in the statewide and district-benchmark testing.

**Objective 2:** Develop moderate/severe programs by including consistent curriculum and instruction while providing access to the community, functional living skills, and a positive social-emotional climate.

**Objective 3:** Provide necessary technology and training to all teachers and students to support access to curriculum and needed resources.

**Objective 4:** Increase Internal capacity by increasing staffing and providing sufficient training, ongoing PD, and coaching.

**Objective 5:** Improve programs and services to support social-emotional learning of Special Education students’ in the least restrictive environment.

---

**Goal 1, Objective 1, Year One**

Ensure that all mild/moderate students have access to the Common Core curriculum and participate in the statewide and district-benchmark testing.

- Content Specialists will identify and create a cadre of Elementary PEC Teacher-Leaders to support on-site coaching.  
- Content Specialists will support Summer Institute training of Teacher-Leaders starting in 2014.  
- Content Specialists work with teachers to fully implement mild/moderate SDC participation in Benchmark testing  
- Content Specialists work with all Resource teachers to implement and align with the Common Core  
- Content Specialists and Reading Clinic staff will work with 15 elementary Resource teachers to pilot Reading Clinic style intervention curriculum with a goal of creating “Learning Center” models to reduce referrals to a more restrictive environment (MRE). Use of identical intervention curriculum will facilitate a re-entry for SDC students to Resource and General Ed | P | C | The number of referrals to SDCs from the pilot resource teachers will be reduced by 25%; and the number of students re-entering Resource from more restrictive placements at the pilot schools will increase 10% |

Goal 4: Build accountability for quality in Special Education by creating systems and structures to engage the community and use data in planning for and measuring desired outcomes.

Objective 1: Create structures for meaningful family and community engagement
In order to create a culture of shared purpose and relational accountability to raise student achievement for students with disabilities, we must intentionally create spaces and structures for on-going family and community engagement among families and PEC district and site based staff. We must be in “Right Relationship” with each other, prioritizing trusting relationships that empower families to advocate and support their children’s education and are based on student needs.

Objective 2: Develop systems for data informed decision making and accountability for outcomes
We must build a comprehensive data management system that integrates all Special Education technologies and processes, supported by a strong data culture. Meaningful, accurate, and accessible data creates opportunities for authentic engagement, and is a cornerstone of effective strategies and accountability for continuous improvements. Our data management system must be able to expose issues, identify trends, and support special education programs and services that:
- Meet the goals and objectives of students’ IEPs
- Raise overall student achievement
- Promote inclusion in general education
- Improve ability to meet A-G requirements
- Increase access to post-secondary and career opportunities
